# Point of Sale System for Libraries

MagnaPOS is the first Point of Sale application for libraries. It is a complete point of sale solution built for Windows based systems that can turn any PC into a cash register.

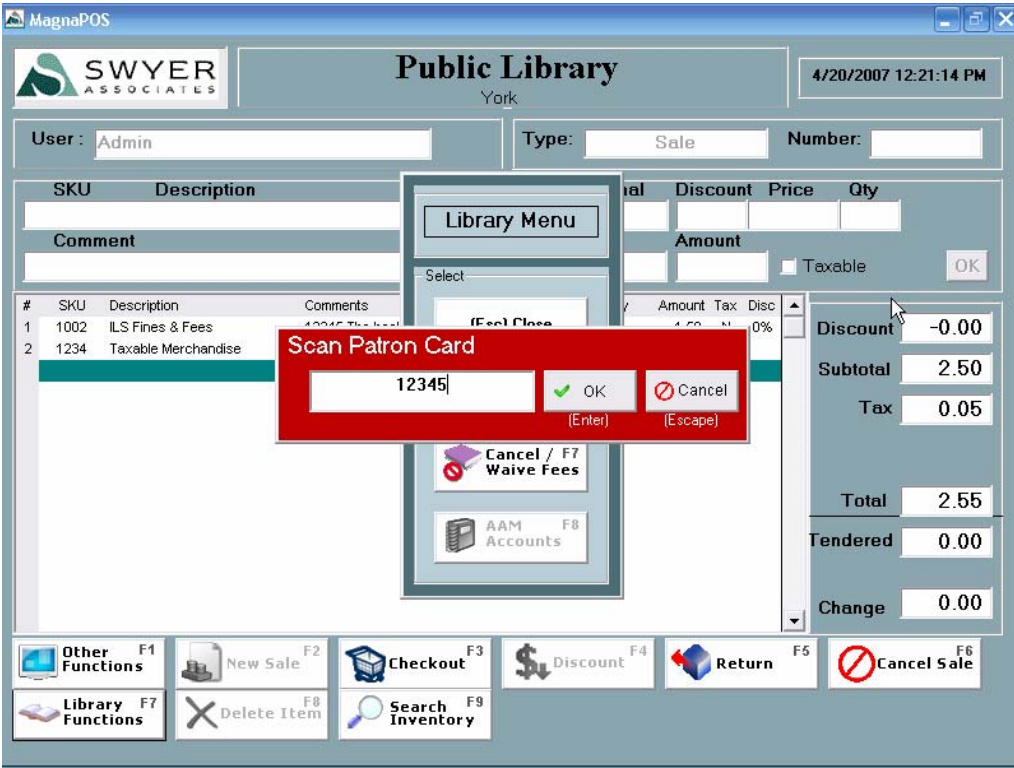

*Manage your fees & Increase your revenue*

It allows you to pay patron fines and fees, process payments, control access to cash, and provide the reports you need to offer superior customer service.

Whether you have one branch or many, MagnaPOS can provide a complete end-to-end solution.

### Key Features

- Interfaces directly with your ILS server to access patron accounts
- Process sales and refunds quickly and easily
- Accept cash, checks, credit & debit cards, gift cards & more
- Windows Based software that's fast and easy to use.
- Over 100 configurable options lets you choose the setup that's right for you!
- Built in barcode scanning allows quick information entry
- Detailed reporting lets you keep track of sales and more.

## Manage Multiple Registers

With MagnaPOS Branch Manager you can manage and report on the activity of multiple registers within a branch or location.

- Manage items for sale, and report on all branch activity from one central location
- Track sales for the entire branch
- Consolidate credit card processing from multiple registers
- Manage register configuration and setup
