

## Manage Multiple Stores

Bring together sales information from across your organization with MagnaPOS Enterprise Manager. Featuring centralized management and reporting for an unlimited number of registers and locations it's the most flexible, cost effective way to view the big picture and keep all your stores running.

- Track sales for the entire enterprise from one convenient location
- See which stores are performing and which ones need help
- Manage register and store configuration to conform to your policies
- Built on Microsoft SQL Server, your data is accessible, and there is no limit to how big you can grow.

# Retail Point of Sale System

MagnaPOS is a complete point of sale solution built for Windows based systems that can turn any PC into a cash register.

*Satisfy your customers & help your business grow*

It allows you to record and track sales, process payments, control access to cash, and provide the reports you need to offer superior customer service.

Whether you have one register or stores spread across the country, MagnaPOS can provide a complete end-to-end solution.

### Key Features

- Process sales and refunds quickly and easily
- Accept cash, checks, credit & debit cards, gift cards & more
- Windows Based software that's fast and easy to use.
- Over 100 configurable options lets you choose the setup that's right for you!
- Scalable inventory control can handle thousands of items.
- Built in barcode scanning allows quick information entry
- Detailed reporting lets you keep track of sales, products, and more.

## Manage Multiple Registers

With MagnaPOS Store Manager you can manage and report on the activity of multiple registers within a store or location.

- Manage inventory, set re-order points, and see what's selling!
- Track sales for the entire store
- Offer layaway to customers
- Consolidate credit card processing from multiple registers
- Manage register configuration and setup
